

Entering into a new era of education- “Launch of the Global Legal Course”

“Creativity is thinking up new things. Innovation is doing new things.”- Theodore Levitt

Since last decade, there is an urge felt by legal fraternity to update or append the current legal education with regard to academics specially syllabus. Since the pandemic this urge became a conviction that without making major changes to the existing academic delivery the legal education will crumble upon on its own. Ever changing laws, reforms, amendments etc. have led to a situation where it is must for a lawyer to have exposure to almost all the aspects of the legal field, be it drafting, arbitration, pleading, moot court, etc.

Keeping all this in mind Indore Institute of Law came up with a course in consultation with eminent scholars, administrators, lawyers, judges and industry experts which aims at imparting legal education in a way which will not only revolutionize the entire system but will also empower a student to become an authority in prevailing legal scenario. With this thought in mind Indore Institute of Law came up with the 5 year integrated B. B. A. LL. B. (Hons.) with Global and Transnational Studies, thus once again becoming a pioneer in bringing innovation in the field of private law education. The course is designed by the top most academicians & professionals of the legal fraternity and was till now available only in the national law colleges but it is now readily available in the private sector.

The course is designed under the watchful guidance of Dr. Faizan Mustafa, Vice Chancellor, NALSAR, Hyderabad, is one of its kind in the private law institutes. The course aims at creating “Global Lawyers”, the term in itself is self explanatory as clearly states the objective of the course. The course aims at creating legal professionals who are well equipped to take the challenges head on with adequate

exposure and knowledge about the field.

The concept of choice based credit courses is very common in professional courses. The choice based credit courses add to the educational expertise of the student and provides extra learning.. The global course has an array of credit courses all certified and approved by competent authorities which will enhance the learning experience of the students. The practical aspect of these courses will provide first hand practical experience about the particular course which will add another dimension to the learning process.

B.B.A.LL.B. (Hons.) with Global & Transnational Studies

In today's era the requirements of the industry are very precise and specific. They look for the candidates with those particular skills which are needed by them. Hence it becomes of paramount importance to insure that such skills and attributes are inculcated in a student so that they are easily absorbed by the industry. To achieve this the institute is committed to provide special training programs via simulations which will help the students to sharpen their skills required by the industry.

The world is rapidly changing and so is the education field. The pedagogies, content, mode of education all has changed tremendously in last a short span of time. This pandemic too has accelerated the process of delivery of education. The course itself is designed in such a way that it will provide students with an ease of learning but the understanding will be more elaborative.

Equipping oneself with additional learning is a key to success. This is the sole principle behind the global program. The more a student learns the brighter are the chances of a good future. The leaning process never ends and is always adds to the arsenal. Hence it is of great importance to acknowledge the importance of leaning in life. Routine curricular activities like moot, debate, pleading & drafting, etc are pillars of learning. To add to this new fields or less practices fields like arbitration, litigation. Mediation and Negotiation etc. too will enhance the employability skills of the students.

The success or failure of an academic program depends upon the academicians delivering the content. The course has deployed services of eminent legal professionals from judiciary, academia, legal firms etc. so

that the syllabus is delivered in more matter of fact way. This will ensure in deliverance of academics in a more precise and practical manner. The eminent faculty members themselves are alumni of renowned universities. The plethora of academicians includes some from abroad and having expertise in specific areas too.

To provide students with practical experience the institute has signed many MOUs with leading law firms, training houses, litigation experts, etc so that students may get the best of exposure to the dynamic external environment. This will lead to overall nurturing of students who will get an opportunity to interact with the experts. The strong linkages with industry lead to availability of opportunities in the areas of training, internships, placements etc which further enhances the knowledge and confidence of the aspirants.

INTRODUCTION OF THE GLOBAL LEGAL COURSE 2020

This course is truly a visionary take on the development that the legal fraternity and the social, political and economical paradigm of India have witnessed in recent times. This course is an outcome of invaluable input and support from the Respected Patron, Advisory Board & Education Board.

This course is fit for students seeking to develop themselves as commercial legal eagles, the teaching structure is based on a reverse engineering technique of understanding the view point of the best minds of the legal fraternity to understand the skills and training required in a perfectly modelled legal professional. This course is developed with a sincere vision towards the superpower that India seeks to be and to ensure that the legal professional being developed by this course can bring their best stance in this process becoming a

truly developed nation & legal fraternity.

The Global Legal Course aims to indoctrinate a generation of lawyers who transcend borders in mind and in action; legal professionals that take over the global world. The prime objective of the course is to bridge the gap between the understanding of law in letter & law in practise and to bring a teaching methodology that aligns with the globalizing aspect of the legal fraternity.

COURSE BRIEF

“Law is about the society; law changes its perception, implementation and relevance according to the societal dynamics surrounding the same.”

– Martin Luther King Jr.

Keeping in its vision the changing dynamics of the Indian societal and legal parlance in the era of Globalization,

Indore institute of law introduced an advanced Global Legal Course that aims at training the students based on the societal and industry requirements with special emphasis in the globalized development of the legal profession.

In the era of globalization where the law has transcended boundaries, it becomes increasingly necessary for the legal education to evolve in a manner that is compatible with the dynamic nature of the legal profession. This very perspective led to the foundation of the 5-year integrated law course as B.B.A.LL.B. (Hons) Global & Transnational Studies.

This course offers innovation and constitutes a large part of comparative law studies of multiple legal jurisdictions. The comparative study modules will provide students with a perspective and knowledge of different

legal models, practices and cultures outlining global and transnational law. Thereby equipping the students to operate in a complex, fragmented and innovative legal context.

METHODOLOGY

The methodology of the course is based on a specialized training structure based on industry Input Model. The course is based on teaching & training, whereby, the institute has incorporated skill development with specific and specialized learning through certification courses in areas that are the requirement of the legal industry; the training model is based entirely upon commercially focused laws. The most significant aspect of the methodology is the incorporation of a globally relevant and transnational methodology of learning.

BBA LLB (Hons.) is a one such unique and niche interdisciplinary program that has emerged in the last decade in response to fast-changing trends of the industry. It provides an in-depth knowledge of commerce and business management, with intricate details of law and governance. It is an honor to be in the education board of Indore Institute of Law ranked among best law schools in central India. The course has strong focus on developing individuals with legal knowledge and managerial knowledge & values and managerial skills for the practical world.

Mr. Sandeep Bhalotia

Head of Legal,
(Dubai) WIPO Neutral

Through this course BBA LLB (Hons.) Global & Transnational Studies, students gain valuable insights into both domains, viz management of business functions, including finance, marketing, human resource management, international business, and the legal policy & framework, including corporate laws in the fields of banking, investment, corporate governance, insurance, competition.

Mr. Nishant Laroia

Founder The PACT, Mediator
& Conflict Resolution Trainer

The legal profession is one field, where experience from the sector can be found useful in other sectors as well. For example, if you have worked as a criminal lawyer, then the experience accumulated by you will be quite helpful when you decide to work for a corporate organization; same applies here when you get to study both management and law together.

Mr. Avi Vatsa

President, Youth for Human
Rights International India

The program gives the students the tools, skills and practical experience to successfully manage, lead and communicate in today's increasingly competitive and interconnected world.
